

DHARMESH GUPTA

Python Backend Developer Intern | AI & API-Focused

📞 +91-9558497840 ✉ dharmeshgupta.r@gmail.com 🔗 [linkedin.com/in/dharmeshgupta](https://www.linkedin.com/in/dharmeshgupta) 🐙 github.com/dharmeshgupta

Professional Summary

Backend-focused Computer Engineering student with hands-on experience in Python, Django, FastAPI, PostgreSQL, and Docker, building scalable, AI-driven backend systems. Strong background in payments, authentication, REST APIs, and technical community engagement. Actively seeking Python Developer / Backend / AI-focused Internship opportunities.

Technical Skills

Programming Languages: Python, SQL

Backend Frameworks: Django, FastAPI (Primary)

Databases: PostgreSQL, SQLite

APIs & Authentication: REST APIs, JWT, OAuth (Google Login)

DevOps & Tools: Docker, Git, GitHub, VS Code

Payments & Integrations: PayPal Payment Gateway, Refund & Transaction Handling

AI & Automation: Chatbot Integration, Prompt Engineering

Concepts: OOP, MVC Architecture, Microservices Basics

Experience

Google Campus Ambassador

Sep 2025 – Jan 2026

Google (Student Program)

AI & Community Outreach

- Selected to represent Google on campus and promote developer programs and AI initiatives, including Gemini AI.
- Organized and participated in peer learning sessions to introduce students to Google tools and AI technologies.
- Actively promoted Google events, workshops, and learning resources to increase student engagement.

Projects

OrchSutra.ai | **FastAPI, PostgreSQL, SQLite, JWT, Firebase, Docker, Vercel**

2026

- Developed a scalable multi-LLM orchestration platform routing queries across top-tier models (OpenAI, Anthropic, Ollama, Gemini) via a unified RESTful API.
- Built a high-performance FastAPI backend with automated fallback strategies, token analytics tracking, and asynchronous processing for concurrent AI workflows.
- Engineered a responsive React dashboard integrating Firebase authentication, interactive multi-modal chat (Vision/TTS), and dynamic API key management.
- Implemented an automated API key provisioning engine featuring pre-built, memory-optimized RAG agents powered by LangChain and LangGraph for zero-knowledge integration.
- Deployed a highly available, containerized microservices architecture utilizing Docker, Render, and Vercel.
- **GitHub:** github.com/dharmeshgupta/OrchSutra.ai
- **Live Project:** orchsutra.ai-eta-ruddy.vercel.app

BusLocator – Smart Campus Transport Management System | **FastAPI, React, PostgreSQL, Redis**

2026

- Engineered a scalable microservices-based transport management platform using **FastAPI, React, PostgreSQL, Redis**, and **Docker**.
- Implemented secure **JWT authentication**, role-based authorization, and REST APIs for managing students, drivers, buses, routes, and transport assignments.
- Developed a real-time tracking service with **WebSockets** and **Redis Pub/Sub** to stream live bus locations, ETA updates, occupancy, and route progress.
- Integrated **Razorpay** for transport fee payments with secure order creation, webhook verification, transaction auditing, and receipt generation.
- Built responsive dashboards using **React Query, Zustand**, and **Leaflet**, enabling live tracking, analytics, and transport administration.
- **GitHub:** github.com/dharmeshgupta/BusLocator
- **Live Project:** <https://bus-locator-six.vercel.app/>

E-Commerce Web Application (RiwaazWear) | **Django, PostgreSQL**

2025 - 2026

- Developed a complete e-commerce web application with user registration, login, and Google OAuth authentication.
- Integrated PayPal payment gateway supporting secure payments, refunds, and transaction history tracking.
- Designed a dynamic admin panel for managing products, categories, pricing, inventory, and images.
- Implemented a scalable backend architecture to support future features and high data consistency.
- **GitHub:** github.com/dharmeshgupta/E-commerce-django

Certifications & Achievements

- **Aspire Emerging Leaders Certificate – Aspire Leaders (Harvard-affiliated):** Completed leadership and professional development training hosted by the Aspire Institute.

- HackerRank 4-Star Coder demonstrating strong problem-solving ability in Python and SQL.
- Built and engaged a professional LinkedIn network of 10k+ connections by sharing technology insights and educational content.

Education

Bachelor of Engineering (B.E.) in Computer Engineering

Gujarat Technological University (GTU)

2024 – 2028

Second Year Undergraduate
